Dear Sir/Madam,

I am interested in the Senior Manager position with XXX and I am confident that I would be a valuable addition to your team.

For the last 15 years, I have worked in a similar position at Verizon where I was responsible for the analysis of raw data and also for contributing to the creation of data products such as Facebook's Graph Search. My time at Verizon taught me how to identify and answer industry-relevant questions and then how to use that information to create a cutting edge advantage for my team in the technical advisory group.

The Bachelor of Science in Informatics that I earned from Western International University was instrumental to my success during my time as a data analyst and Master of Science in Data Science I'm earning from Bellevue University was instrumental to my success as a business intelligence manager at Verizon. Along the way to earning my degree, I also developed a strong background in mathematics that has served me well in my pursuit to advance the interests of my employers. My experience at Verizon and my educational background make me a good fit for this position as does my personal passion for logical problem-solving.

Your time and consideration are appreciated and I look forward to hearing from you. You can reach me at (602) 999-3062. Thanks for your attention.

Hope to hear from you soon,

Sincerely,
Cindy Herrera
